Diploma of Information Technology  
**Current GPA:** High Distinction (89%)

*Referees available upon request*

# Tāne Kaio

JUNIOR FULL-STACK  
WEB DEVELOPER

## SUMMARY

As an emerging web developer from Melbourne, I am ready and eager to take the next step of my professional journey in the technology industry. Naturally visually-minded, I have an acute eye for small details, appreciation for colour and form and a love for design. Along with my passion for learning, problem solving, optimisation and logical analysis, I believe that I possess a unique mixture of knowledge, talent and attitude to offer to the world of technology.

## KEY PROJECTS

### 🔗 Portfolio

A portfolio website built using fundamental HTML & CSS emphasising semantic code and exploring the possibilities of user interaction and website behaviour without JavaScript.

### 🔗 Gig Guide web server API

A RESTful API that provides a platform to share upcoming local music shows and add artists and venues to a watchlist without the need for social media with a focus on community spirit and word-of-mouth.
